

Parental Leave Policy

Version 2.1 | Effective date: January 1, 2026

1 Purpose and Eligibility

This policy provides job-protected parental leave for the birth, adoption, or placement of a child. Regular employees who have completed 12 months of continuous service may request leave. Statutory entitlements that are more favorable than this policy continue to apply.

2.1 Leave Duration

Eligible employees may take up to 16 weeks of parental leave for each qualifying event. HR confirms the available entitlement and whether local law requires a different duration or payment treatment.

2.2 Request Procedure

Submit the parental leave request and supporting documentation to HR at least 30 days before the planned leave where reasonably possible. The request should state the proposed start date, expected return date, and whether the leave will be taken continuously or in approved blocks.

3 During Leave and Return

Employees must keep HR informed of changes to the expected return date. HR and the manager will coordinate the return-to-work plan and any legally required accommodations. Employees should not perform regular work while on approved parental leave unless HR has authorized a transition activity.

4 Benefits and Contacts

Benefit continuation, pay, and interaction with vacation or medical leave depend on the applicable plan and local law. HR is the authoritative contact for an individual eligibility determination; managers should not promise an entitlement outside this policy.
